GET READY TO SET UP

# WookAI Restaurant Timer setup worksheet

Fill this in before you type your kitchen into the app. An example row is already filled in so you can see the kind of detail that helps. In the app, a station is set up as a Zone, and each basket, burner, grill spot or oven rack is a place on that equipment.

## 1. Location

Each plan covers one location. Example: Joe's Grill — Midtown, 123 Main St, Suite 4.

**Location name**

**Owner or manager**

**Address**

**Phone**

**Email**

## 2. Stations

List each station and the equipment in it. Example: Grill: flat-top, char-grill; Fry station: two fryers.

| STATION NAME | EQUIPMENT IN IT | NOTES |
|---|---|---|
| Grill | flat-top, char-grill | Example row — keep or replace |
| Fry station | two fryers | Example row — keep or replace |
| | | |
| | | |
| | | |
| | | |

## 3. Timers on each piece of equipment

Decide how many timers each piece of equipment needs. A fryer with 2 baskets = 2 timers; a flat-top = 6 spots.

| STATION | EQUIPMENT | HOW MANY TIMERS |
|---|---|---|
| Fry station | Fryer | 2 timers (2 baskets) |
| Grill | Flat-top | 6 spots |
| | | |
| | | |
| | | |
| | | |
| | | |

## 4. Menu items

Only list the menu items that are timed while they're prepared — salads and other items that aren't timed don't belong here. For each one, add the name, which equipment can make it, the total cook time, and each instructional step with its time — for example, Flip at 2:30. A menu button can later be a color, text, a built-in icon, or a picture you generate in the app.

| MENU ITEM NAME | EQUIPMENT | TOTAL TIME | INSTRUCTIONAL STEP 1 (WHAT + WHEN) | INSTRUCTIONAL STEP 2 (WHAT + WHEN) | MORE INSTRUCTIONAL STEPS |
|---|---|---|---|---|---|
| Burger | Grill | 5:00 | Flip at 2:30 | | Example row |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |

## 5. Tablets

Decide how many tablets you need for your kitchen. You don't need to assign them to stations here.

**How many tablets do you need for your kitchen?**

Example: 4

**Notes**

## 6. Expo (the pass)

The Expo screen is on the Expo and Premium plans. It shows every menu item that's cooking and what's next.

**Do you want a tablet at the pass?**

Choose...

**How many pass tablets?**

**Notes**

## 7. Franchise

Franchisor and franchisee plans must match. A location can still add unique menu items that are not in the franchise system. A restaurant on the free demo can join only a franchisor who is also on the demo.

**This restaurant is**

Choose...

**Plan you will use (must match the other side)**

Choose...

**Unique menu items this location will add (not in the franchise system)**
